Resume Analysis Report: Marcus Chen

Report ID: 20261109T101547Z_5e8b582c_9852 • Date: 2026-11-09 10:15 UTC • App Version: 0.1.0

Notice: This report supports, and does not replace, human judgement. Scores reflect alignment between stated requirements and information extracted from the resume. AI-generated sections are interpretations that have not been verified. Do not use this report as the sole basis for any employment decision.

1. Candidate Information

Candidate ID:	5e8b582c1f1c
Candidate Name:	Marcus Chen
Email:	marcus.chen@example.org
Source Format:	TXT

2. Job Requirements

Position Title:	Senior Python Developer
Required Skills:	Python, FastAPI, PostgreSQL, Docker, Kubernetes, Redis
Optional Skills:	GraphQL, CI/CD, AWS, Terraform
Min Experience:	5.0 year(s)
Min Education:	BACHELOR
Strategy:	weighted

3. Overall Match Score

Total Score:	68.3 / 100	Fit Band:	MODERATE	Coverage:	100%

Review Flags:
• MISSING_REQUIRED_SKILLS: 2 required skill(s) not found in resume.

4. Score Component Breakdown

Dimension	Status	Weight	Subscore	Points	Explanation
Required Skills	evaluated	50%	0.67	33.3	Weight 0.50 (effective 0.50) x 0.6667
Experience	evaluated	20%	1.00	20.0	Weight 0.20 (effective 0.20) x 1.0000
Education	evaluated	15%	1.00	15.0	Weight 0.15 (effective 0.15) x 1.0000
Optional Skills	evaluated	15%	0.00	0.0	Weight 0.15 (effective 0.15) x 0.0000

5. Skill Match Analysis (Job Requirements)

Target Skill	Type	Matched Candidate Skill	Match Type	Credit
Python	Required	—	none	0%
FastAPI	Required	—	none	0%
PostgreSQL	Required	PostgreSQL	exact	100%
Docker	Required	Docker	exact	100%
Kubernetes	Required	Kubernetes	exact	100%
Redis	Required	Redis	exact	100%
GraphQL	Optional	—	none	0%
CI/CD	Optional	—	none	0%
AWS	Optional	—	none	0%

Terraform	Optional	—	none	0%

6. Candidate Skills Inventory

Skill Name	Canonical	Category	Provenance	Mentions
Go	Go	Programming Languages	extracted_rule	3
Docker	Docker	Cloud & DevOps	extracted_rule	2
Kubernetes	Kubernetes	Cloud & DevOps	extracted_rule	3
PostgreSQL	PostgreSQL	Databases	extracted_rule	2
Redis	Redis	Databases	extracted_rule	2
gRPC	gRPC	Frameworks & Libraries	extracted_rule	1
Linux	Linux	Cloud & DevOps	extracted_rule	1
Microservices	Microservices	Other	extracted_rule	2

7. Experience Analysis

Required: 5.0 yr(s) • Candidate: 7.1 yr(s) • Status: MET

Job Title	Company	Duration	Provenance
Senior Backend Engineer	CloudScale Technologies	68 mo	extracted_rule
Software Engineer	MicroSys	17 mo	extracted_rule

8. Education Analysis

Required Level: BACHELOR • Candidate Level: MASTER • Status: MET

Degree	Level	Institution	Provenance
Master of Science in Software Engineering	MASTER	University of Washington	extracted_rule

9. Recommendations (AI-Generated — Not Verified)

AI-generated content unavailable (disabled).

10. Hiring-Suitability Assessment

Candidate profile demonstrates MODERATE alignment with requirements based on deterministic scoring criteria (Score: 68.3/100, Coverage: 100%).

11. Suggested Interview Questions (AI-Generated — Not Verified)

AI-generated content unavailable (disabled).

12. Appendix & System Limitations

Scoring limitations: Lexical skill matching may miss semantic equivalents. Experience calculations assume continuous employment within month intervals. Educational attainment evaluates level hierarchy without institution ranking.
